In Minecraft, players are able to build huge structures where they could live for days or even weeks without seeing another player on another computer unless you far away from their view range. The only way to become visible on the server is by breaking certain blocks such as fences and most trees which causes a noise that will attract other players to your location. If the player is the first one at a piece of land upon joining, then it will be owned by them. If another player sees that first person at the location and decides they want it, they can kill them and then claim ownership.",

In the game of Minecraft there are different types of blocks such as Stone, Wood, Iron and many more. All of these blocks are available in every version but it is up to you to unlock more of them within each area you play on (this is known as saving worlds). Every version also includes a number of mobs. This is the name given to all of the characters you can see in game. Some of the mobs will be friendly while others will just want to hurt you (especially if they are hostile). But there are some friendly ones that will help you out!",

The game utilizes a block-based mining and crafting system. As in Minecraft, players can gather resources such as blocks of wood, stone, ores, plants, and foodstuffs from the environment to use in crafting. While players are able to craft a variety of basic weapons such as axes and swords using these materials, they will need to gather blueprints for advanced items such as firearms and explosives. The game features combat between players where every player has access to health regeneration; this prevents battles from lasting indefinitely and makes it more viable for players to attack each other with melee weapons instead of guns.",
